

Interior Health

ARE YOU INTERESTED IN A NURSING CAREER?

Consider this Experienced Based Pathway to becoming a nurse!

HCAP – Paid HCA Training

This is a position funded by Interior Health

The Health Career Access Program (HCAP) is a paid working and training position for individuals excited to start a career in healthcare. Hires may start in a Health Care Support Worker (HCSW) role providing non-direct care in long-term care, assisted living, home health or acute setting before completing paid training as a Health Care Assistant (HCA) at a participating post-secondary institution. After completing their training (which typically requires 6 to 12 months of full-time post secondary education), participants will return to their Interior Health work site to fulfill a 12-month Return of Service contract in exchange for the funding they received.

HCA to LPN Bridging Program – APN Bursary

This is a bursary from Choose2Care

The Access to Practical Nursing (APN) program is a unique career ladder program for Health Care Assistants (HCAs) wishing to train as Licensed Practical Nurses (LPNs). The APN program allows students to apply training and experience garnered as an HCA to accelerate their training as an LPN.

The APN Education Incentive Bursary exists to support you! To learn more about this bursary, or to see if you qualify, please visit the site below:

**This portion of training is not funded by Interior Health*

LPN to RPN/RN Bridging Programs

Not funded at this time

LPN to Registered Psychiatric Nurse (RPN) or Registered Nurse (RN) programs can be found at post secondary institutions throughout the province.

Potential funding opportunities may be available through programs like StudentAid BC and BC Nurses' Union.
